ScottCares Foundation Launches Breast Cancer Awareness Campaign at Bennett College

Greensboro, NC – The ScottCares Foundation, a 501(c)(3) organization that aims to teach and promote computer literacy to young people and provide financial assistance to low-income students, spearheaded a breast cancer awareness event at Bennett College’s Student Union on Tuesday, October 24, to raise money that will be donated to the Breast Cancer Resource Directory (BCRD) of North Carolina. The Breast Cancer Resource Directory of North Carolina is the state’s first statewide complete directory of resources for women and men with breast cancer.

Along with raising money, the goal was to raise awareness through the dissemination of extremely valuable information about the risk factors of breast cancer. Breast cancer survivor, Viola Correll attended the event and shared her emotional yet inspirational story. “The difference between knowing you’re at risk and not knowing you’re at risk could be the difference between life and death,” said Viola.

ScottCares Foundation, in conjunction with the Eta Chapter of Phi Beta Sigma Fraternity Inc., will be collecting money up until the end of November to make a sizable contribution to the BCRD. End
